DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because in figures 4-7 and 14-17, the labels for the first and second air stream arrows need to be differentiated from each other, such as with the use of lines in the second air stream arrow. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Answers to Applicant's Arguments

2. The 35 U.S.C. §112 second paragraph rejections of claims 1-19 of the office action mailed 10/29/2008 have been withdrawn due to Applicant's amendments.
3. The 35 U.S.C. §102 rejections of anticipation by *Yuji* JPN 2001263729A of the office action mailed 10/29/2008 have been withdrawn due to Applicant's arguments and amendments.
4. The 35 U.S.C. §103 rejections over *Yuji* JPN 2001263729A in view of *Fujimura* JPN 08094124A of the office action mailed 10/29/2008 have been withdrawn due to Applicant's arguments and amendments.

Allowable Subject Matter

5. Claims 2-19 are allowed.
6. The following is an examiner's statement of reasons for allowance: The prior art does not disclose a humidity control device where all or part of a second air stream, prior to its passage through a humidity control passage, passes through an auxiliary passage when the adsorptive unit is regenerated by releasing moisture from the humidity control passageway.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
